

25-5, God's Man for the Hour But - -

President Trump's narrow escape from death at Butler could appear to be miraculous. Divine intervention - even an affirmation of God's call upon his life for this time. I agree, but could we be missing something in that?

To say that President Trump is God's man for the hour is only to say that he is, even if unknowingly, a tool in the Father's hand like Herod was in his day. It is not to say that he will make America great again in the way that enabled us to prosper as we did. I don't sense that that is God's priority in our Day. It's more about prophecy being fulfilled.

Like pieces on a chess board, God arranged Israel and Rome and their leaders, along with certain Wise Men and humble shepherds and others including a teenage girl, a carpenter and a manger in the "No Vacancies" town of Bethlehem, so that each unwittingly did his/her part in the Father's master plan. It is no different today and it is playing out right in front of us - if we have eyes to see.

God is actively orchestrating events in Israel, and the United States and our allies and enemies, and in technological and scientific advancement along with events in the heavens and much more, to set the stage for what comes next. (Don't press me on what I think "comes next" means. Live with your eyes and your heart fixed on Him and your hope rooted in Him, and it doesn't matter.)

I have no sense of a deliberate plan on Trump or Musk's part to facilitate End Time events, but I believe they are doing so unwittingly. Many of you believe that too, even if you're not ready to acknowledge it. Doesn't it seem like it's time to "look up?"

Next up, "The Musk Factor."

PEACE to you!
